PROJECTS

Vedic Wisdom Web Platform (Live) (GitHub)

- Developed a full-stack MERN application to deliver structured spiritual and philosophical content.
- Designed modular content architecture with categorized learning sections and dynamic UI.
- Built RESTful APIs and integrated MongoDB for efficient data handling.
- Deployed on Vercel ensuring high availability and performance.

Parent-Student Chatbot System (Live) (GitHub)

- Built a MERN-based chatbot system to enable communication between parents and students.
- Implemented authentication and backend APIs for efficient query processing.
- Integrated MongoDB Atlas for scalable cloud-based data storage.
- Designed responsive frontend and deployed using Vercel.

ACHIEVEMENTS

- Led and coordinated the Cricket Championship at Mahotsav 2026, a national-level youth festival at VFSTR, managing end-to-end event planning and execution over 2 months.
- Actively solving problems on LeetCode and GeeksforGeeks to strengthen problem-solving skills.
- Participated in hackathons and collaborative development projects.
