PROFESSIONAL SUMMARY

Aspiring Software Engineer with a strong foundation in Data Structures and Algorithms and hands-on experience in building full-stack MERN applications. Skilled in developing scalable backend systems, RESTful APIs, and efficient database solutions. Passionate about problem-solving and writing clean, maintainable code.

EDUCATION

B.Tech in Computer Science and Engineering

2023–2027

Vignan's Foundation for Science, Technology and Research

CGPA: 7.74

TECHNICAL SKILLS

Languages: Java, Python, C

Core: Data Structures & Algorithms, OOP, DBMS, Computer Networks

Frontend: HTML, CSS, JavaScript, React.js

Backend: Node.js, Express.js

Database: MongoDB

Tools: Git, GitHub, VS Code

PROJECTS

Vedic Wisdom Web Platform ([Live](#)) ([GitHub](#))

- Developed a full-stack MERN application delivering structured spiritual and philosophical content.
- Designed and implemented RESTful APIs using Node.js and Express for efficient backend processing.
- Integrated MongoDB for optimized data storage and retrieval.
- Built dynamic and responsive UI using React for enhanced user experience.
- Improved application performance and user experience through efficient API handling.
- Deployed application on Vercel ensuring scalability and high availability.

Parent-Student Chatbot System ([Live](#)) ([GitHub](#))

- Developed a MERN-based chatbot system enabling communication between parents and students.
- Implemented secure authentication and backend APIs for efficient query handling.
- Used MongoDB Atlas for scalable cloud-based data storage.
- Designed responsive frontend and deployed using Vercel.

ACHIEVEMENTS

- Solved 80+ problems on LeetCode focusing on data structures and algorithms.
- Led and coordinated Cricket Championship at Mahotsav 2026, managing end-to-end execution.
- Participated in hackathons and collaborative development projects.

CERTIFICATIONS

- Joy of Computing Using Python — NPTEL
- Public Speaking — NPTEL
- Principles of Management — NPTEL
- Cambridge English B1 Level
