

PALAGANI MANIKANTA

+91 8688224624 palaganimani5@gmail.com LinkedIn GitHub LeetCode (300+)

OBJECTIVE

Seeking a Software Development Engineer role with strong problem-solving ability, scalable system design knowledge, and backend development expertise.

EDUCATION

Bachelor of Technology in Computer Science and Engineering, Vignan University **2023 – 2027**
CGPA: 8.3

Intermediate (MPC), Narayana Junior College **2021 – 2023**
CGPA: 9.8

TECHNICAL SKILLS

Languages	Java, JavaScript, Python, C
Data Structures	Arrays, Linked Lists, Trees, Graphs, Dynamic Programming
Backend	Node.js, Express.js, REST APIs
Frontend	React.js, HTML, CSS, Tailwind CSS
Databases	MongoDB, MySQL
Core Concepts	Operating Systems, DBMS, Computer Networks, OOP
System Design	API design, scalability basics, client-server architecture
Tools	Git, GitHub, Postman, Linux, AWS (basic knowledge of EC2 and S3)

PROJECTS

MERN E-Commerce Application

<https://lessmani.netlify.app/>

- Engineered a full-stack platform supporting 50+ users with separate admin and user modules
- Integrated secure authentication using JWT and role-based access control
- Developed REST APIs handling product, user, and order operations efficiently
- Structured complete order workflow including cart, checkout, and payment processing
- Optimized database queries, reducing response time by approximately 30%
- Validated API endpoints using Postman to ensure reliability

IoT-Based Smart Home Security System

<https://iot-resume-link.vercel.app/>

- Built a real-time monitoring system handling multiple sensor inputs using ESP32
- Enabled detection for fire and intrusion with instant alert generation
- Designed an automated notification system delivering alerts within seconds
- Maintained stable device-server communication for continuous monitoring

2D Game using Python

https://github.com/Manikanta-palagani/2D_Gaming

- Created an interactive 2D game with smooth animation and gameplay mechanics
- Applied collision handling and scoring system for user engagement
- Integrated sound effects and progressive difficulty levels

EXPERIENCE

Project-Based Development Experience

2024 – Present

- Delivered 3+ full-stack projects using the MERN stack
- Designed scalable backend APIs supporting real-time operations
- Applied data structures to improve execution efficiency
- Conducted testing and debugging to ensure system stability

ACHIEVEMENTS

- Solved more than 300 problems on LeetCode
- Completed MERN Stack Training
- Completed AI Internship
- Secured third place in a game development competition
